FEELS LIKE HOME

Living design here, there, everywhere.

Vivir el design aquí, allí, en todas partes.

Multiple cultures. Different perspectives.
Our roots intertwine, revealing more of who
we are - a reflection of the world.

Diversas culturas. Distintas perspectivas.
Nuestras raíces se entrelazan y revelan un
poco más de lo que somos. Del mundo.

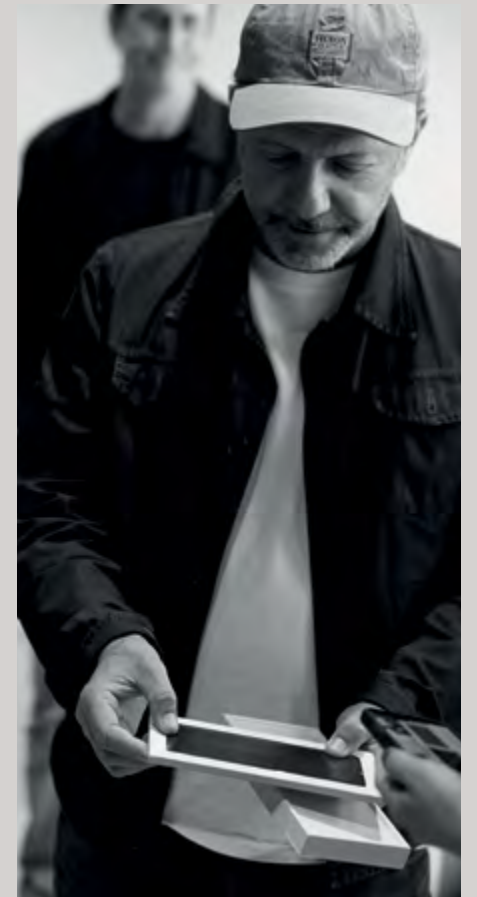

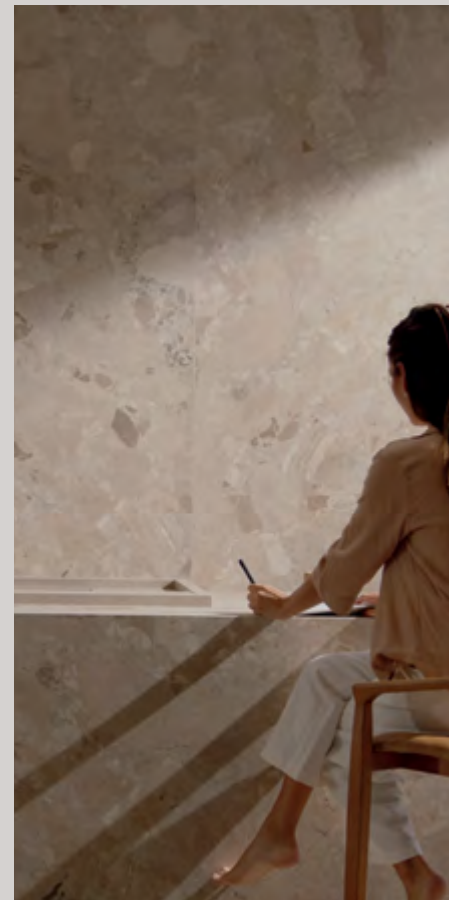

We research, share, create collectively.
A never-ending cycle.

By paying attention to the path, we find comfort.

Investigamos, compartimos, creamos colectivamente.
Un ciclo que nunca acaba.

Atentos al camino, nos sentimos acogidos.

We find inspiration in nature. In art, meaning.
In the collective, authenticity.
In colors and textures, comfort.

And in the detail that transforms the space,
our bossa comes to life.

That's how we are. Innovative. Passionate about design.
Always, wherever we are.

Bossa on the road. Feels like home.
Portobello.

Buscamos en la naturaleza la inspiración.
En el arte, el sentido. En lo colectivo, autenticidad.
En los colores y las texturas, el confort.

Y en el detalle que transforma el ambiente,
queda expresada nuestra bossa.

Así somos. Innovadores. Apasionados por el design.
Siempre, donde sea que estemos.

Bossa on the road. Feels like home.
Portobello.

Cape Cod

There are places that create unique lifestyles, a certain way of being unpretentious but also sophisticated, and with experiences that make it all worthwhile.

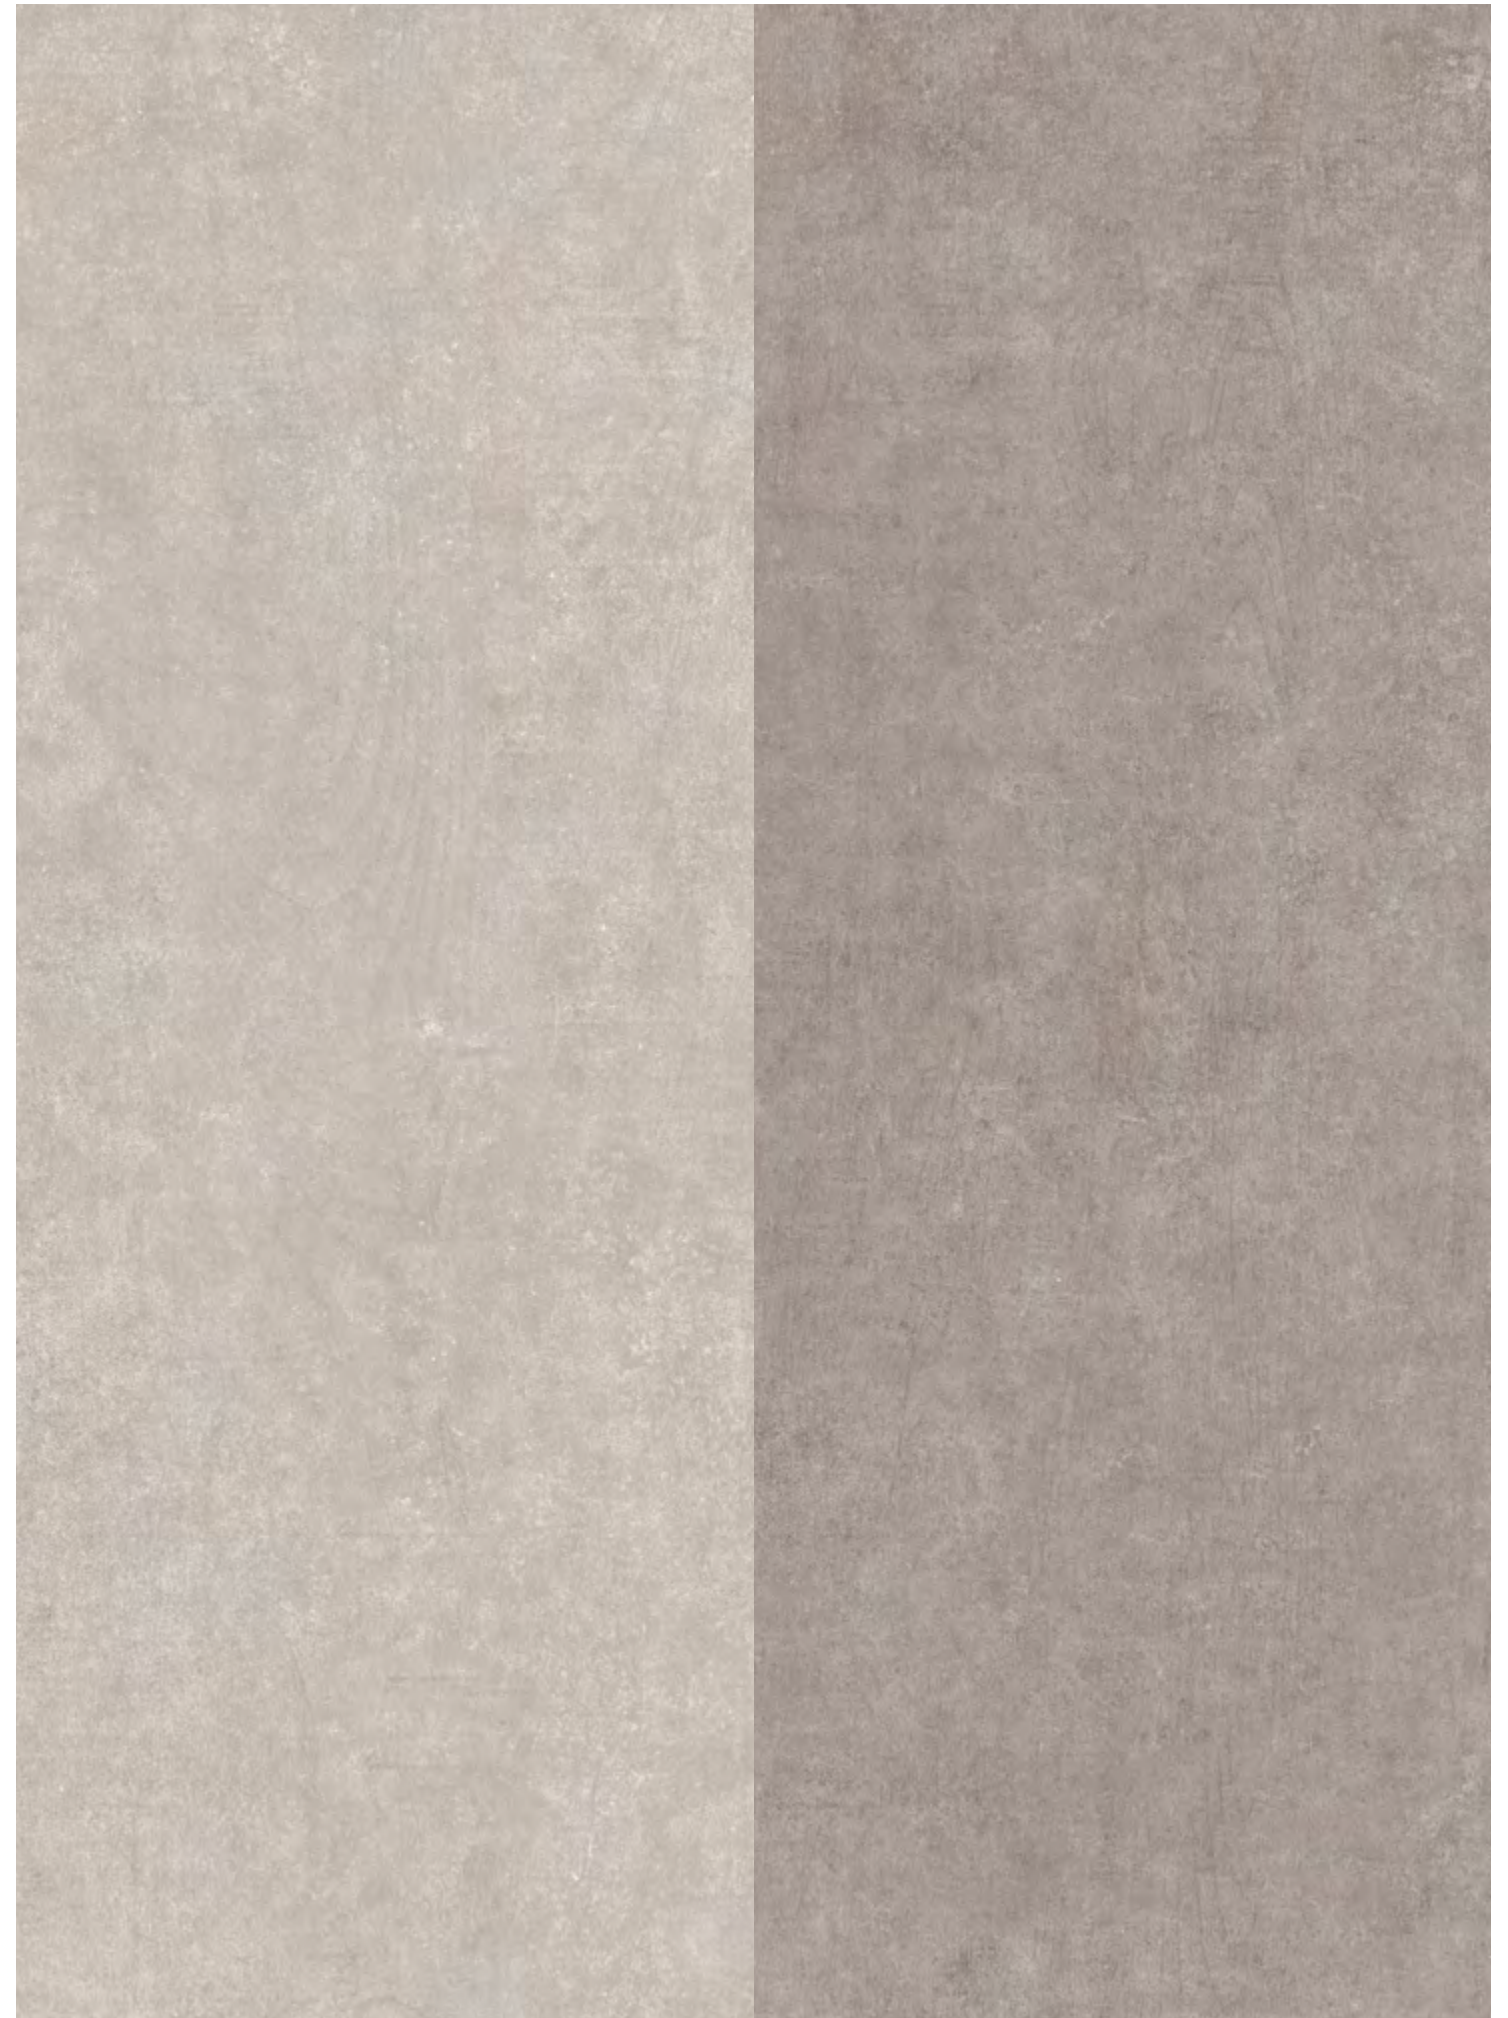

Cape Cod, a peninsula which is north of New York, with houses in a style molded by its first inhabitants - local fishermen, blessed by the extensive coastline of golden sands, is one of these places.

Time and history unfold in Cape Cod as if nothing had changed, bearing the marks of simplicity and local authenticity.

Existen lugares que crean estilos de vida únicos, una forma de ser modesta, pero a la vez sofisticada, con experiencias que valen la pena.

Cape Cod, una península con casas con un estilo forjado por sus primeros habitantes, pescadores locales privilegiados por la extensa costa de arenas doradas localizada al norte de Nueva York, es uno de esos lugares.

El tiempo y la historia fluyen en Cape Cod como si nada cambiara, llevando impresas las huellas de la simplicidad y la autenticidad local.

Brutalist architecture, from daily coexistence with modernist works that crudely reveal concrete.

Pure, just the concrete. Concrete and its marks. The surface.
The material. The Synthesis.

A route of projects from Masp to corporate buildings by Slovak architect Hans Broos, which includes the original Parque Portobello Building and Hering Building in Santa Catarina, made it possible to dive into this architectural language and its marks, printed on concrete.

Arquitectura brutalista, de la convivencia cotidiana con obras modernistas que revelan crudamente el concreto.

Puro, solamente el concreto. El concreto y sus marcas. La superficie.
La materia. La síntesis.

Un guión de proyectos desde Masp hasta edificios corporativos del arquitecto eslovaco Hans Broos, que incluyen el edificio original del Parque Portobello y el de la Compañía Hering en Santa Catarina, permitió profundizar en ese lenguaje arquitectónico y sus huellas impresas en el concreto.

Archeology as design. The evidence revealed was a reference for the process. Every trace, every crack, every reaction with the steel, every impression of a wooden shape. Finally, a Synthesis. Of design, of technology, of a look that selects and refines.

Sintese is the new Portobello material. Unshakable in revealing herself pure.

Arqueología como diseño. Las evidencias reveladas fueron un referente para el proceso. Cada trazo, cada grieta, cada reacción con el acero, cada impresión de una forma de madera. Al final, una síntesis. De diseño, de tecnología, de una mirada que selecciona y refina.

Arca

The rescuing of forests, known through a trip or a story told, awakens the sensation that there is something there that must be preserved.

With this in mind, Arca was created, a gesture to protect, from the impact of time and everything else that could threaten nature's grandeur - a selection of woods that could represent an imaginary forest, with all the woods in the world. It is a simple and ambitious display, that provoked the creative work and a journey to a new surface.

Un reencuentro con los bosques conocidos, ya sea en un viaje o a través de alguna historia contada, despierta la sensación de que allí hay algo que debe preservarse.

Con este instinto fue creado Arca, un gesto para proteger del tiempo y de todo lo que pueda amenazar la grandeza de la naturaleza - una selección de maderas que representa un bosque imaginario, con todas las maderas del mundo. Es un manifiesto, sencillo y ambicioso, que impulsó el oficio creativo y la expedición hacia una nueva superficie.

Rescuing woods, discovering new species, enabling them to travel and reuniting a diverse archive of unmatched beauty, is the design challenge.

Recreating the woods, intensifying or dampening their markings, finding the best balance of new shades and cultivating a new forest – now material, now a new collection of woods, as result of a process that differentiated it and guaranteed its authenticity.

Rescatar maderas, descubrir nuevas especies, transportarlas y reunir un archivo diverso y de una belleza única desafía al diseño.

Recrearlas, intensificando o suavizando sus marcas, buscando el perfecto equilibrio de los nuevos tonos y haciendo emerger el nuevo bosque, ahora material, a través de una nueva colección de maderas, resultado de un proceso que las transformó y les otorgó autenticidad.

Given all the beauty of this nature, we rescued several species
along the way.

Fragments that always bring the history of their trees.

Veins, cathedrals, knots. The language of wood.

Given all this, choices. Do things another way. The forest stands.

Inmensidad. Árboles inmensos, bosques inmensos, naturaleza
inmensa. Frente a toda la belleza de esta naturaleza, rescatamos
varias especies en el camino.

Fragmentos que traen siempre la historia de sus árboles.

Venas, catedrales, nudos. El lenguaje de la madera.

Frente a todo esto, opciones. Hacer las cosas de otra manera.

Our desire to innovate through collaboration and our admiration for contemporary art inevitably led us to Vik Muniz.

His personality - restless and expansive - sparked debates beyond the material and influenced reflections on behavior, art, and design.

Vik demonstrates in his work an interest in discussing the true meaning and value of objects. His works invite us to understand the part before the whole, or the whole before the part. Small diamonds form celebrities. Confetti brings historical figures to life. Shredded – and useless money gains new value by recreating elements of nature.

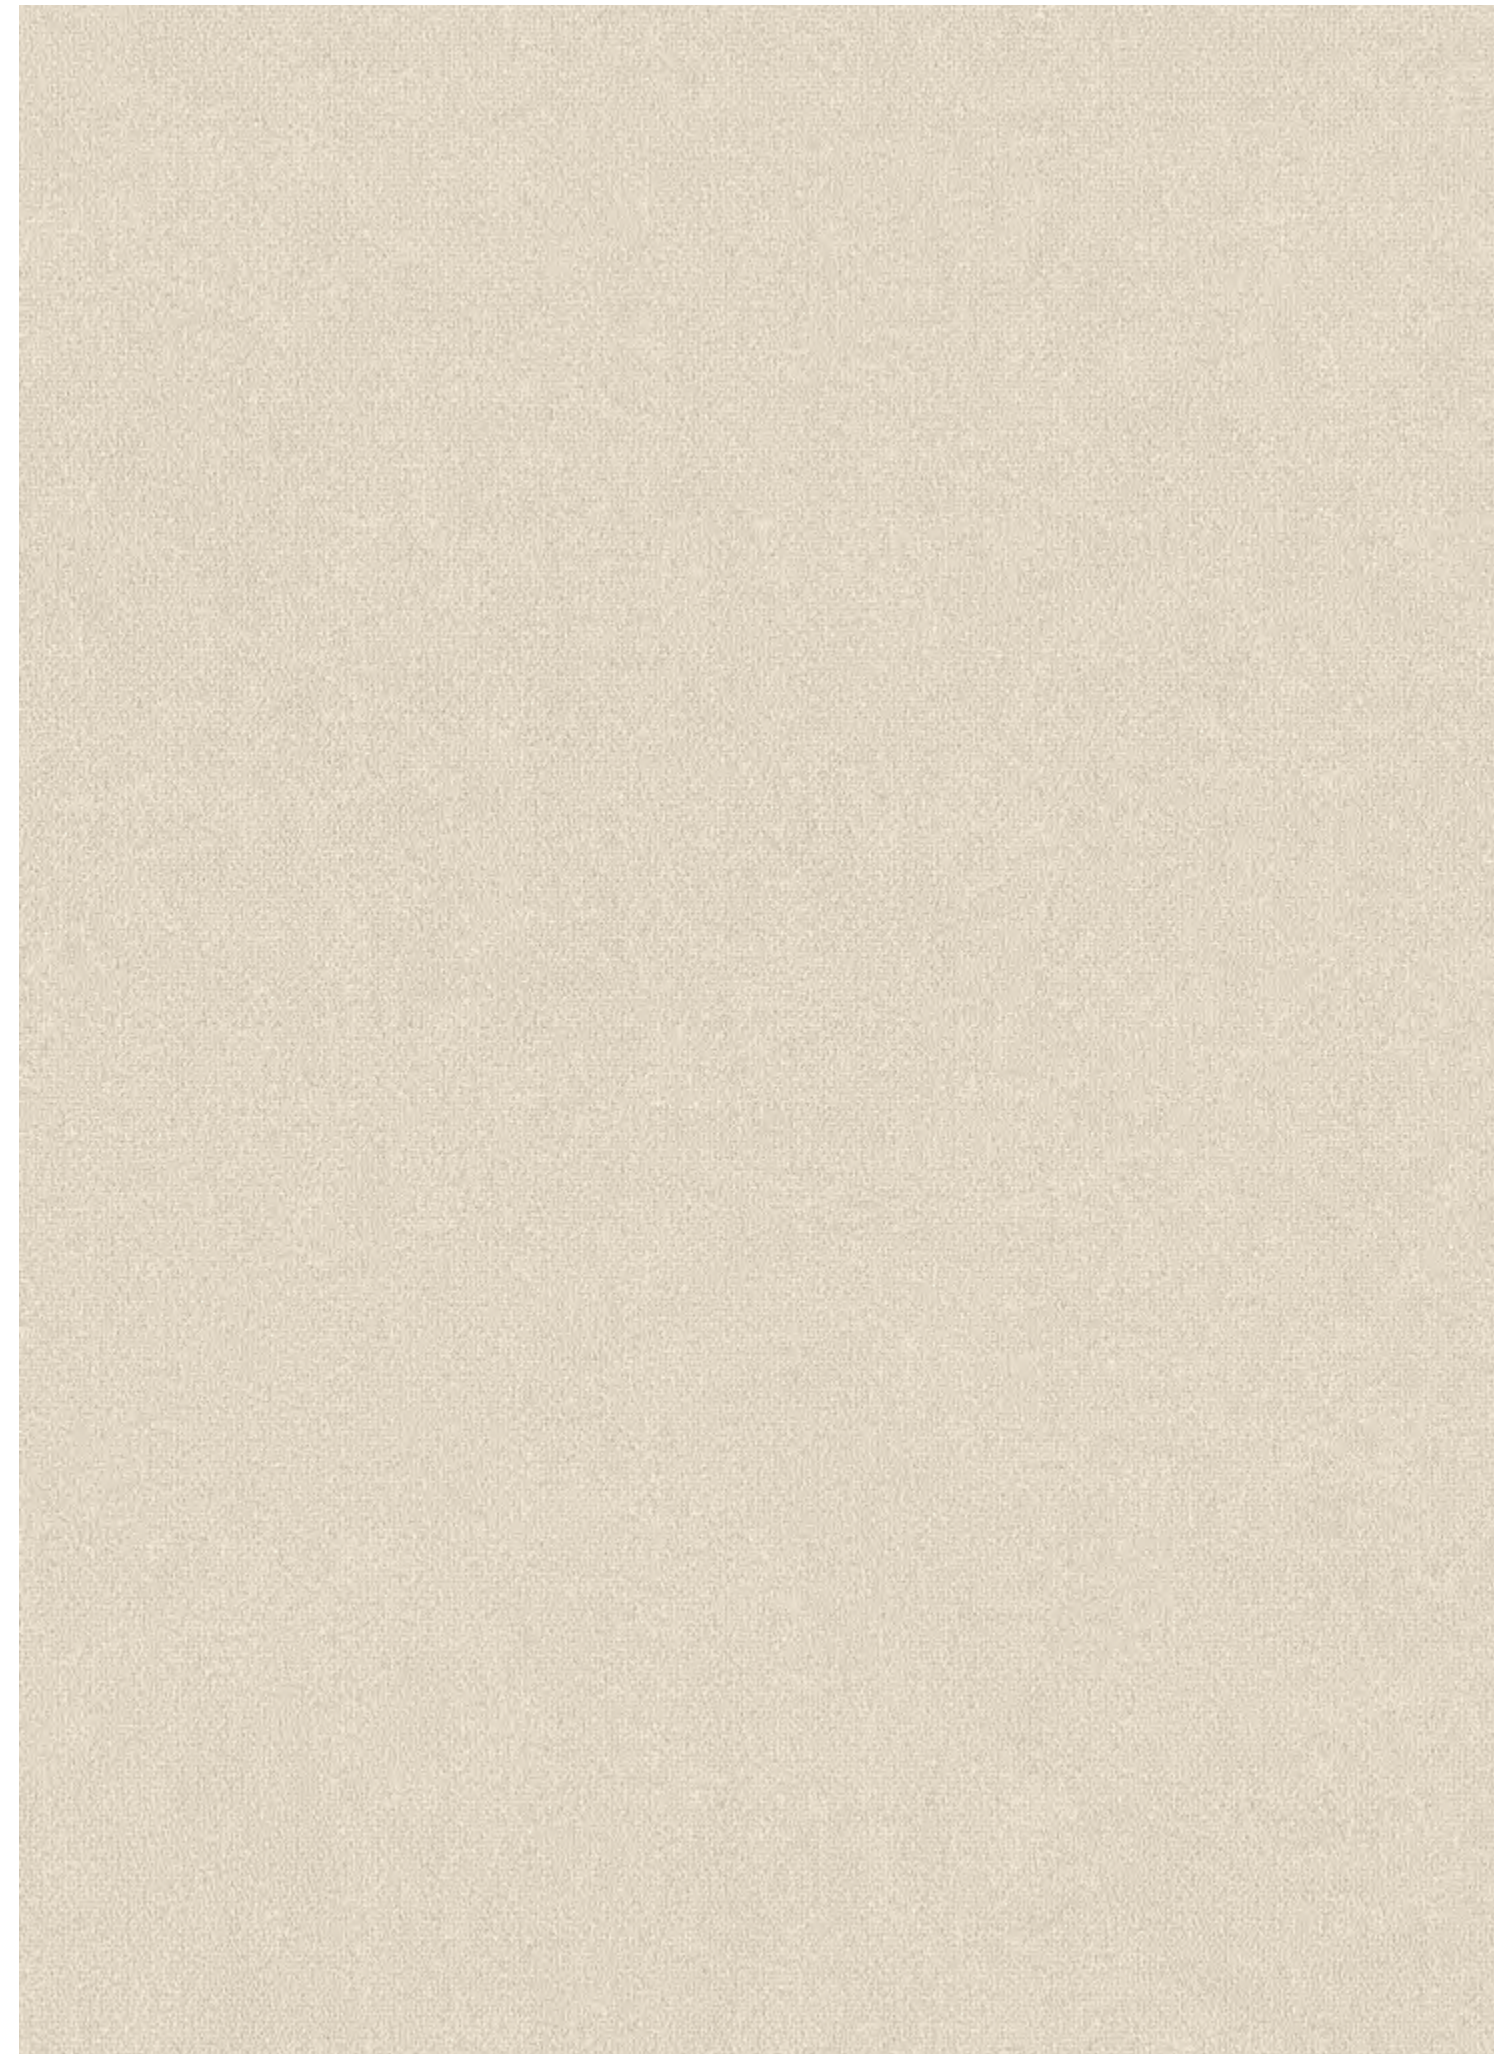

Vik lends this same creative eye to ceramics and creates a new texture that surprises both eyes and hands.

Nuestra voluntad de innovar a través de la colaboración y nuestra admiración por el arte contemporáneo nos llevaron, inevitablemente, a Vik Muniz.

Su personalidad - inquieta y expansiva - generó debates más allá del tema e influyó en las reflexiones sobre el comportamiento, el arte y el diseño.

Vik demuestra en su trabajo un interés en discutir el verdadero significado y valor de los objetos. Sus obras nos invitan a entender la parte antes que el todo, o el todo antes que la parte. Pequeños diamantes forman celebridades. Los confetis dan vida a figuras históricas. Dinero triturado - y inútil - gana un nuevo valor al recrear elementos de la naturaleza.

Vik le da esta misma mirada creativa a la cerámica y crea una nueva textura que sorprende a ojos y manos.

The paper was the starting point. The porcelain, the means of expression.

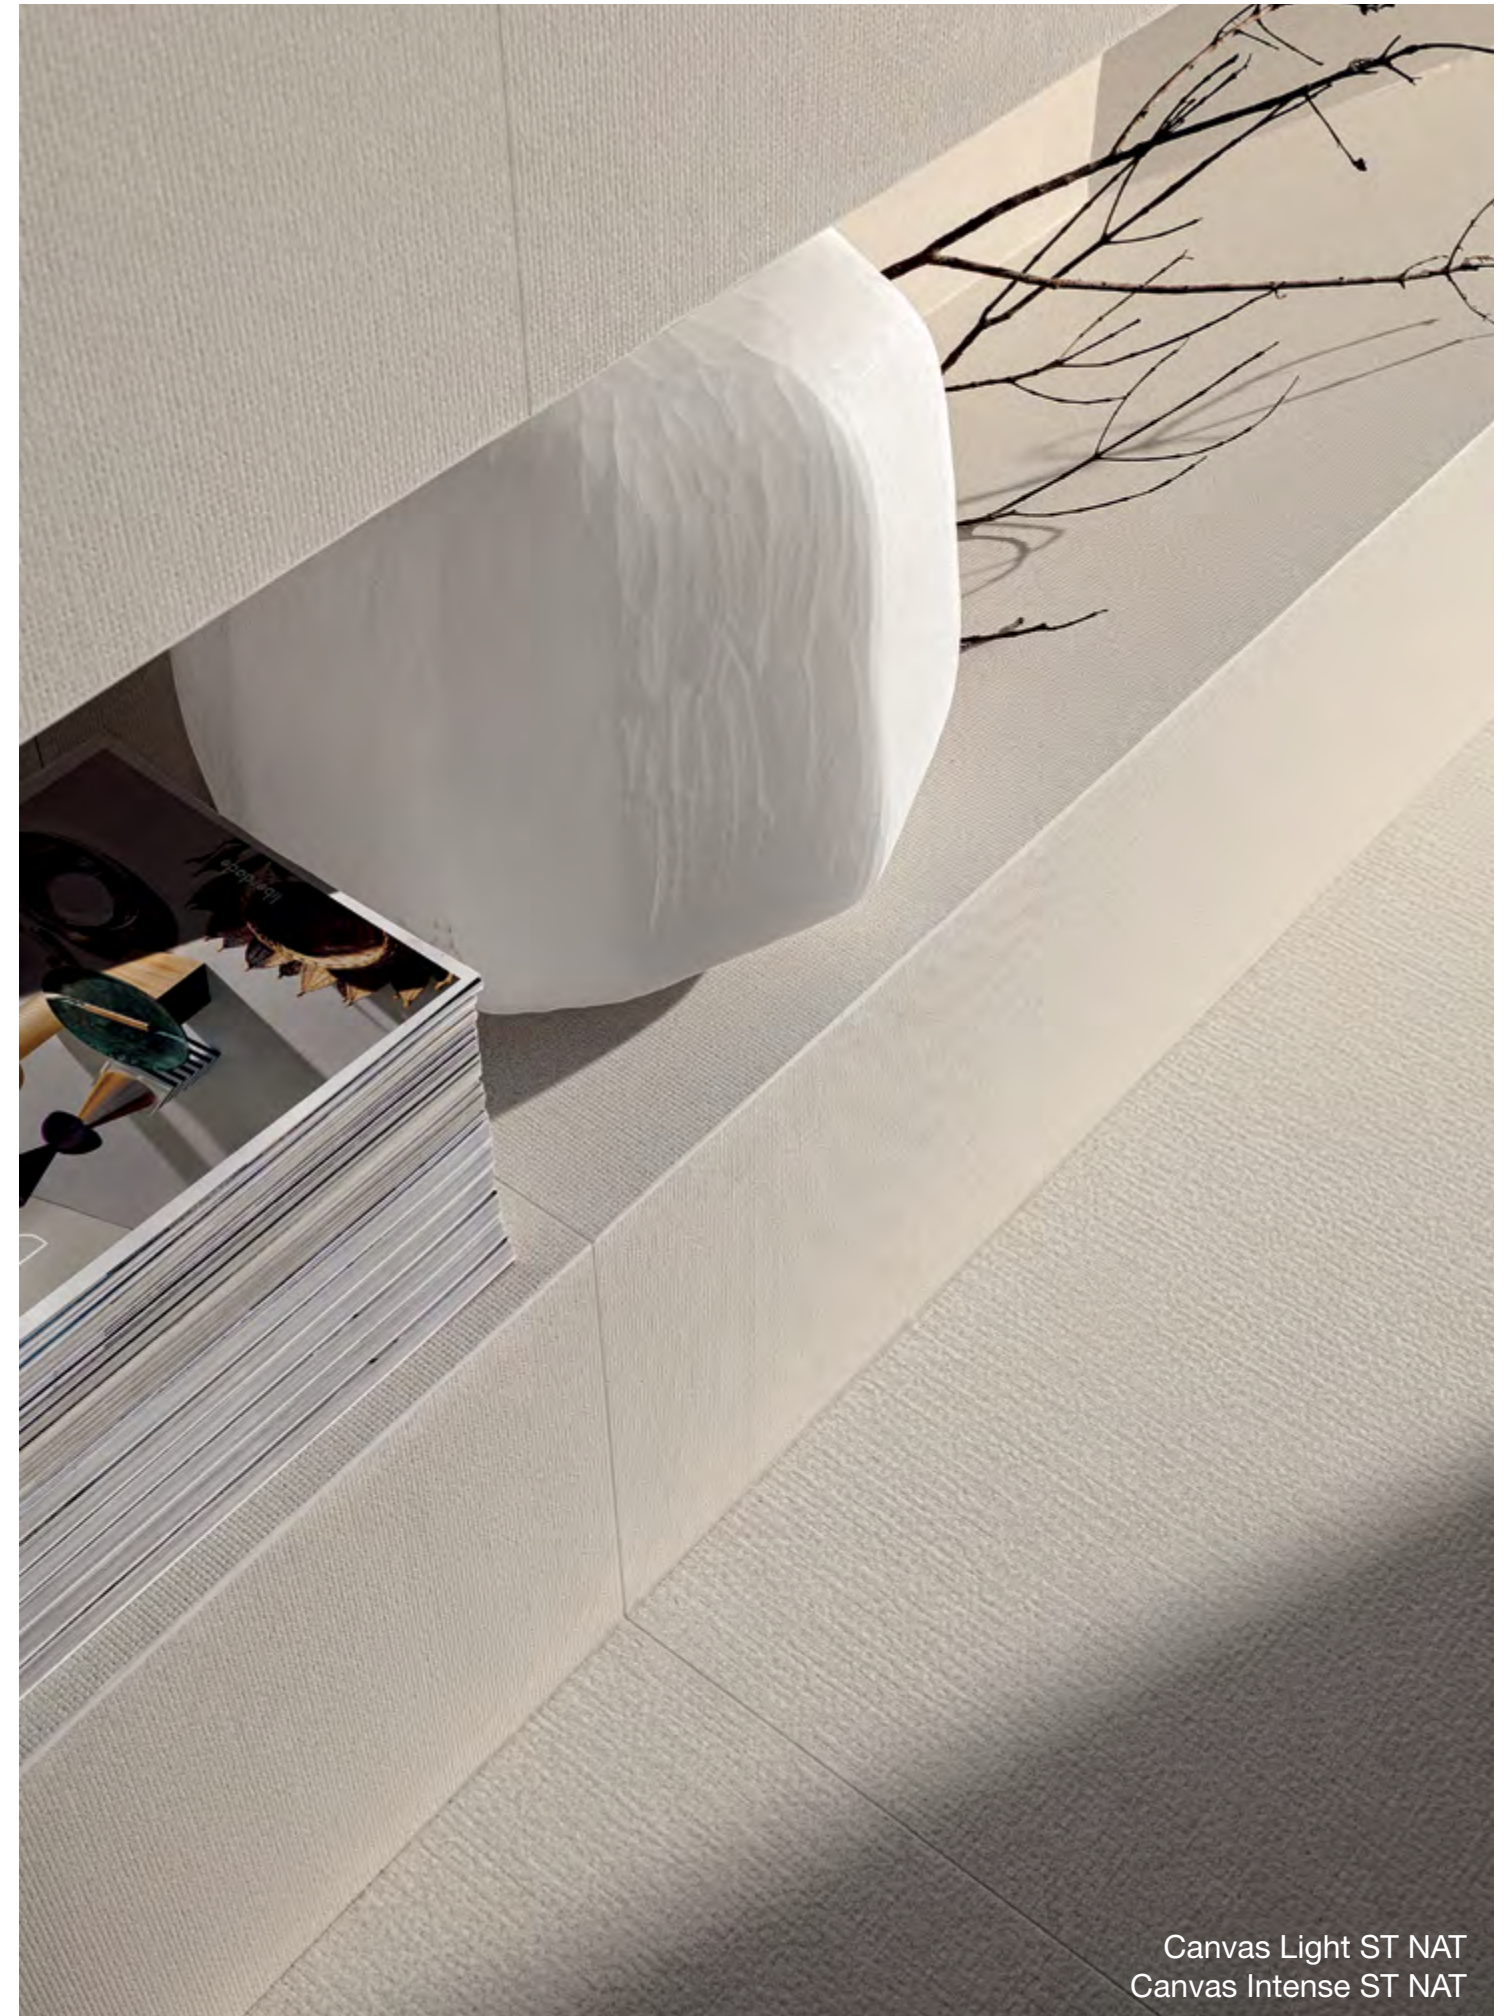

During the process, he skillfully guided us to extract from the ceramics the same textures, micro-reliefs, designs, and colors that very much attracted him to the paper. An ancient material that seduces artists with its meaning and possibilities.

Thus, Haptic is born, a collection that explores the different characteristics of paper and the subtle nuances of watercolor.

El papel fue el punto de partida. El porcelanato, el medio de expresión.

Durante el proceso, él nos guió hábilmente para extraer de la cerámica las mismas texturas, micro relieves, diseños y colores que tanto le atraían al papel. Un material milenario que seduce a los artistas por su significado y posibilidades.

Así nace Haptic, una colección que explora las diferentes características del papel y los sutiles matices de la acuarela.

Canvas reveres large formats, highlighting the different weights of the paper, always in search of a neutral surface.

Aquarelle celebrates color as the protagonist in contemporary tiling. It interprets the classic watercolor palettes with its untouched paints in their trays.

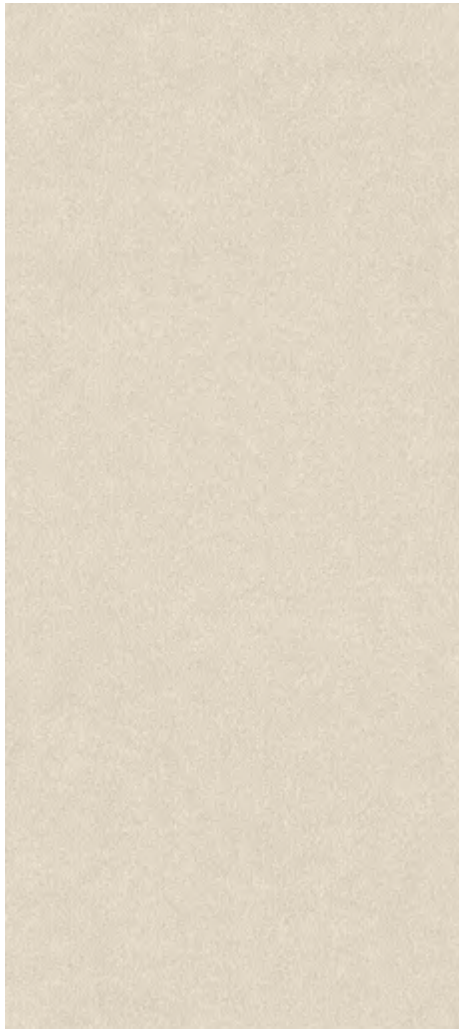

Haptic. Vik Muniz and Portobello. Connection between art and design. Matter and dream. Reality and infinite possibilities.

Canvas reverencia los grandes formatos, destacando los diferentes gramajes del papel, siempre en busca de una superficie neutra.

Aquarelle celebra el color como protagonista en una variedad de azulejos contemporáneos. Interpreta las clásicas paletas de acuarelas con sus tintas intactas en sus bandejas.

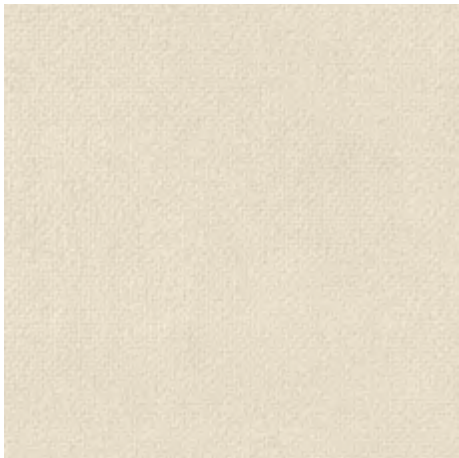

Haptic. Vik Muniz y Portobello. Conexión entre arte y diseño. Materia y sueño. Realidad e infinitas posibilidades.
